Our Goals	Quality of Education	Behaviour and Attitudes	Personal Development	Leadership and Management	Early Years
	Ensure a broad and balanced curriculum, scheme of work, lessons and work given to pupils are coherently sequenced and planned so that pupils know more, can do more and apply what they know to a variety of contexts.	Ensure that there are high expectations and that learners have a positive attitude and are committed to learning, know how to study and take on challenges effectively.	Ensure the curriculum supports the broader development of learners and prepares them for future success and 'life in modern Britain' and as global citizens.	Ensure leaders have strong, shared values, policies and practices in place, supporting a clear vision of how to provide high quality, inclusive education for all children.	Ensure that all pupils have the best start to formal education and are given solid foundations for further learning as they journey through their school education and on into adult life.
